Field Services Update

Submitted by: Johnathan Perry & Kevin McKendree

RiverHouse

- Gym
 - We have been working diligently to acquire proposals for the gym equipment. While we've received 3 quotes to purchase all the new equipment, updates were needed to provide leasing options. We are working with 3 vendors to have this provided as well as options for replacing the flooring.
 - The box that hides the wires behind the treadmills continues to loosen over time. We are working to install them in a way that stays attached and keeps the wires hidden.
- Tennis courts
 - The team was able to reinstall all the windscreens following the storm. Due to the diligent efforts of the maintenance team, none of the screens were damaged.
- Rental Area
 - The team has been working to paint the trim throughout the facility. This project is ongoing due to daily occupancy of the area. We will continue to work this until completion.
- Doors
 - Some more of the door handles needed replacing. Namely the handle leading to the men's shower/handicap stall in the pool side restroom. We were able to source a handle and install it with no issues. We will continue to monitor for additional needs.
- ADA Chair
 - The ADA chair has been installed in the family pool. We recently had both hydrants repaired to allow for residents to utilize the ADA chair at either pool. Staff has been trained on its use and we will continue to monitor to ensure no other needs are identified.
- Cabana
 - The faucet in the cabana was missing some of its parts due to wear and tear. The team was able to source a replacement and install it with no issues.
 - The fans within the cabana are not working properly. We have acquired two new fans, installed them and will monitor for any additional needs.
- Playground
 - The playground has some speakers that have blown. We are investigating options to have these replaced with a more weather resistant option. Once we are certain these will work with the feature, we will install and monitor to ensure there are no other issues.

RiverClub

- Kayak Shed
 - Two additional slots have been added to the kayak storage shed. We were able to free up some space and provide additional residents with storage solutions for their kayaks.

- Pressure Wash
 - The team pressure washed the amphitheater. Due to its location, this area becomes dirty quickly. We are monitoring it's needs based off of usage and adjusting accordingly.
- Countertops
 - It has been discovered that all of the countertops are not secured properly. The team has inspected, repaired and reattached all of the countertops.
- Pool
 - We have received proposals to repair the coping around the pool. The coping has begun to separate from the edge of the pool and is at risk of falling in. We are scheduling the repair for as soon as possible.
- Café,
 - We are investigating options for the bar in the café. The foot rail and back wall are in need of renovation. The rail is attached via security screws that will require extensive time to remove, but once removed, we have a vendor that will take it to powder coating and turn it into a two-piece rail. This will aide in any future needs for removal or repair, in addition to the installation of normal bolts.
- Firepit
 - The pavers at the northern most firepit are beginning to sink. We have contacted vendors and received proposals for the project. We will be scheduling this for repair as soon as possible.
- Fencing
 - Some of the fencing around the facility has the wires that run through it. This tends to become loose and/or break over time. We currently have 4 cables that need to be repaired. We are scheduling this accordingly and will have them repaired as soon as possible.

Common Areas

- Welcome Center Waterfall
 - The vendor has installed the pump on the feature. They are currently searching for the proper gaskets for the pump. Once acquired, they will install and start up the pump. This should be accomplished very soon.
- Painting
 - Due to the weather and scheduling conflicts, the painting of the KeyStone Corners monument and the Pirate Ship playground have been pushed at least two weeks. We are working with the vendor to ensure these projects are completed as this has been an extended wait for these projects.
- RiverClub Roundabout
 - The fencing at the roundabout has been installed following the accident. We will be working with the landscaper to have the area brought back to its original state as soon as the schedule allows.
- Footbridge
 - The walking bridge between Northlake and The Gardens was damaged during the storm by a large tree that fell on it. We have found a vendor to come and repair the damaged sections and should be completed by months end.
- RiverHouse Roundabout
 - The missing walking path light pole is being replaced. We have contacted a vendor to replace the poles foundation and we will be installing the pole in house.

Landscape Update:
